

PRESS RELEASE

LANDI RENZO S.p.A. Chosen as Supplier of LPG Systems for Fiat Group Automobiles

Landi Renzo S.p.A., a world leader in eco-mobility, listed in the STAR segment of Borsa Italiana, has been chosen as supplier of LPG systems for Fiat Group Automobiles.

The Turin-based company has developed an in-house solution to take advantage of market demand trends by deciding to present the full line of bi-fuel Bravo, Grande Punto and Panda vehicles in January-February.

“Being chosen as a partner for Fiat Group Automobiles in the development and manufacturing of Fiat bi-fuel LPG vehicles is further proof of the technological level of Landi Renzo S.p.A. and our ability to develop complex programs as a partner to the world’s leading car makers”, stated the Group’s CEO, Stefano Landi. “In addition, this reaffirms automobile manufacturers’ desire to continue to offer vehicles capable of using cleaner fuels from the standpoint of both carbon dioxide and particulate emissions, the latter being particularly hazardous to humans.”

Landi Renzo is a world leader in the sector of components and LPG and CNG fuel systems for motor vehicles.

Based in Cavriago (Reggio Emilia) and with more than 50 years’ experience in the sector, Landi Renzo is distinguished by the sustained growth of its revenues and the extent of its international operations, with a presence in over 50 countries. Exports account for about 70% of the Company’s sales.

Landi Renzo S.p.A. has been listed in the STAR segment of Borsa Italiana since June 2007.
